Judge Almond Speaks For Democratic Party

LARGE CROWD HEARS THE ADDRESS OF THE TUS- CUMBIA JUDGE

A large audience greeted Judge John Almond of Tuscaloosa when he spoke here today at 11 o'clock in the court house in interest of the state Democratic party and its nominees. The speaker was in-service, the rural telephone system introduced to the many, Houston countians by Hon. B. G. Farmer.

In the address Judge Almond brought out many impressive facts of a country to its good roads. He laid bare many interesting facts about why all true democrats should stand up for the nominees of this party and seemed confident that the citizens of Alabama would not lean from the right.

Good Roads Enthusiast

Besides the remarks in regard to the political situation in Alabama, the address of Judge Almon was brim full of interesting and beneficial remarks to the the Houston country folk.

The judge, being born and raised in the country, has at all times taken an interest in the welfare of the country people, especially in the good roads line, and in his

speech this morning declared this one of the best developing powers for a community.

He stated that he had watched eagerly the steady improvement of the rural districts of Alabama, brought about largely by the state appropriations for the schools, the rural free delivery system, the many other modern countians by Hon. B. G. Farmer.

He spoke large about the local roads and how, for a small cost, they could be so much improved, thus encouraging the Houston County Good Roads Association recently organized here.

The judge expects to be one of the good road enthusiasts to go before the next meeting of the Alabama legislature asking for an appropriation for this work. (Continued on page eight)

CROP WAS LARGER THAN EXPECTED

Louisiana And Mississippi Raised More Cotton Than Last Year.

New Orleans, La., Oct. 30.—The Picayune, in its report on the condition of the cotton crop in Louisiana and Mississippi tomorrow, will say:

Now that the first heavy frost of the season has occurred and in many places the first freeze, the work of accurately estimating the cotton crop will soon be begun. The crop, it is conceded, will be somewhat larger than was anticipated some months ago when it was thought that frost would occur earlier and put a stop to the maturing of the crop. While it seems that the crop ranges from 25 to 50 per cent below normal, it will still exceed that of last year in all probability.

Undoubtedly, the half-frozen was the cause of a greatly reduced yield. Many farmers will resort to greater diversification, but in few instances is there any talk of abandoning cotton raising. The infected stalks will be burned and cotton will be planted and

**Hon. Byrd Farmer
And The Wiregrass.**

Says the Passing Trong department of the Montgomery Advertiser of Sunday's issue:

Any man who has traveled through Southeast Alabama, or who has moved among Southeast Alabama politicians has heard the expression:

"It's about time the Wiregrass furnished a Governor for Alabama."

Between this statement and the fact that Hon. Byrd G. Farmer, of Dothan, was in Montgomery Saturday, there is no special connection, except that a newspaper man has heard some Wiregrass people say that, if four years from now, the people of Alabama want a good Governor they can get him in the person of either the senior or the junior member of the firm of Espy and Farmer, of Dothan, and the reporter really does not know who is the senior and who is the junior member of the firm. And a Wiregrass man has been heard to say that, it is in the range of possibilities, that four years from now, after the O'Neal administration, Mr. Farmer might be brought forward as a candidate for Governor. Mr. Farmer has not discussed this report. It was not mentioned to him when he was in Montgomery Saturday on legal business. But it would surprise no man in the Wiregrass, if Mr. Farmer were among those prominently mentioned for Governor at the conclusion of the O'Neal administration. But four years is a long way off, and to talk about gubernatorial candidates is "crowding the season."

Still, it is permissible to say that the law firm of Espy and Farmer represents more effective stump speaking ability than any firm in the state.

There is no doubt in the world but that it is time the wiregrass section had a man for governor. We have the timber, and it would not surprise us if the straws don't point this way stronger the next time a governor is to be elected.

The state has up some good timber in Barbour, and then it went over to Jefferson to pick out a few, and from there to Lauderdale, the extreme northern end of the state, and the wiregrass has done its share of need, and it has furnished brainy men to help put through political moves. It is time that we stood up for a man for governor.

Home Owning

Some real estate company of Dallas Tex., is flooding the country with literature telling how the public might become home owners by paying them the small sum of six dollars per month. Many people won't tackle that

plan if they thought that it was alright, and but little risk.

After looking through the company's plan, it occurred to us that we are not having calls from the old time building and loan agent. At one time in the history of this town, the building loan agent worked it as regular as do the life insurance agents now. They did a good business, and they built many homes for the people of Dothan. Don't know how the people got out of it, but the homes were built, anyway.

It looks like that a home company could be organized to do this kind of business. There are not so many residences in Dothan as should be. There is always a demand for dwelling houses. If there was a plan put on foot for a poor man to buy a lot and have a house built on it for so much money, many of our people would become home owners that would otherwise rent houses the rest of their days.

This town has reached the size, when the poor man cannot afford to buy a home, or even buy a lot, up near the center of town, on the best streets. But there is plenty of room farther back, in localities that would soon be good residential sections.

The way for a man to own a home it's to nail on to one of these lots and pay for it. It matters not if it is a little far out now. It will not remain so long. Every year that comes, the property will grow in value, and while it may be a burden to carry the payments still it is one way of owning a home, and quit renting.

Plans could be arranged to where the party could pay a monthly payment, slightly more than rent, running over a term of years. This plan would give the town more home owners that it now has. When you have home owners, you have town boosters. You have people who talk, and work for the town, and their talking and working causes others to come, causes others to buy a lot and build a home.

There is plenty of Dothan money to do this. It ought to be done, by some of the hustling real estate people.

But One More Week

Tomorrow week is election day. During this week you will probably be asked something about the candidates, or you will hear somebody discussing them. Take yourself seriously, and see if you know of one single reason why you shouldn't support the Democratic nominee. You are going to live right on in Houston county, in all probability, and you don't want to start out now by establishing a record that you will be sorry of in the future. If you fly off and take a man not regularly nominated by the Democratic party, the thing will be coming up before you in the future. The people are not going to forget it. You never know when you will need a clean political record. It is an easy matter to keep straight.

It is important to take the man that the majority of the Democrats want. You won't get the man you want every time, but you are letting the majority rule. That may be against your better judgment, in some instances, but if you cannot subscribe to these principles, you should never participate in another Democratic primary, and the sooner you announce your intentions of desert-

ing the party, the better for the party.

A. C. Crawford is the Democratic nominee for probate judge of this county. There is no reason why he should not be elected.

Emmet O'Neal is the Democratic nominee for governor of Alabama. There is no reason at all why you should consider for a minute voting for his opposition, an opposition that doesn't hope for success, but does hope to strengthen the Republican party because of the unfortunate state politics and hard feelings in the ranks of the Democratic party.

Turn out Tuesday, November 8 and cast a ballot for the regular Democratic nominees and maintain a record that you will have no cause to be ashamed of in the future.

The New York Sun is busy poking fun at the Colonel, thus boosting his profession of Keeping before the People.

Some have remarked that the G. O. P. elephant is beginning to take on a flea-bitten color.

HEAD BROKEN FOR TWELVE YEARS

Brooklyn, N. Y., Oct. 30.—After serving for twelve years in the navy and army with his skull fractured, but without being aware of the nature of the injury, William E. Richards, a survivor of the battleship Maine disaster, has been operated on at the Naval hospital in Brooklyn, and is now free from the frequent headaches of which he long complained.

Richards was a member of the crew of the Maine when she was blown up in Havana harbor. At the time he was struck on the head by a flying piece of steel. The wound healed and Richards believed himself well. He served through the Spanish war in the navy, and at the expiration of his term of enlistment entered the army as a cavalryman. About four years ago Richards returned to the navy. The examining surgeons found nothing wrong with him.

In the last two years Richards complained of severe headaches. Finally he was examined and to the surprise of the physicians they found a piece of iron pressing on his skull's brain. The iron was removed and the wound is healing.

The C. W. Park Dramatic Company arrived in the city yesterday to fill their week's engagement here.

The first show will be given tonight in the canvass opera house, on the Moody lot on North St. Andrews street, and the usual large crowd will likely greet them.

The tent will be fitted out with opera chairs and will be comfortably heated every night during the week.

CARD OF THANKS

We wish to extend our sincerest thanks to our friends and neighbors, who were so kind to us during the sickness and death of our brother and husband.

T. S. Miller and
Mrs. I. A. Miller.

Importance Of Life Insurance

Do you realize the importance of Life Insurance? If not, you should begin thinking at once, for life is uncertain, and death is being the case, WHY DELAY?

To carry a policy in the Home Company that has just been organized in Dothan, would cost you over TWO CENTS A DAY, and you would not mind paying that small sum to know that when you died, your family would be well provided for.

Often you hear a man say "if I knew I was going to die soon, I would take out a policy," but that is a poor argument, as many a man has died not leaving his family One Dothan cause he thought he would live a long time.

This is where the uncertainty of life lies in, and where the wise man takes time forelock and provides for the future for those that are looking to him for protection.

Why French Market Coffee Is Different From All Other American Coffees

The market men mostly come from France and other countries where Coffee Making is an art—ordinary coffee would not satisfy such men, or the customers of the French Market, the most famous of all American Markets.

Not only must it be the best coffee, but it must be blended right—show the right color—give off the right aroma—have the correct exquisite taste.

No wonder everyone went to the French Market when they wanted a good cup of coffee.

Think what it means to you to be able to buy this exquisite blend—right here in your city.

Then it could be had nowhere else. But now you all may serve it at your table. For the Old French Market blend is perpetuated by the same unique hygienic routine process.

You can get this rare coffee blend with all the enticing aroma and natural strength preserved. For we pack it in hermetically sealed cans.

And it is untouched by human hands from the plantation to the cup.

Order a can from your grocer today and see what you have been missing in coffee.

ONE KILLED; TWO INJURED IN WRECK

BROKEN RAIL ON A SHARP CURVE CAUSES TRAIN TO JUMP TRACK

Chattanooga, Tenn., Oct. 30.—A C. Sanford Freeman of Smyrna, Tenn., was instantly killed, Mike McRae, of Nashville, was badly scalded, and Postal Clerk E. B. Allen was injured in the wrecking of passenger train No. 1 on the N. & W. at Chattanooga at 8:30 long railway early today. The passengers were hardly shaken up and none were injured to any extent.

The accident occurred on a curve between Bolivar and Stevenson, Ala. A broken rail caused the engine to jump the track, the entire train of coaches following. The pilot of the engine finally plunged into the embankment, turning over the cars, toppling and leaving a car at the embankment. Fireman Sanford was pinned under the engine.

A train will pass us soon from this end and the dead and injured were brought back here.

W.O.W. NOTICE

JUDGE ALMOND SPEAKS FOR DEMOCRATIC PARTY

(Continued from page one) money to come from the convict fund of the state.

It is his suggestion that over \$100,000 be laid out for this work, but in regard of the citizens of this county as well as very others in the Alabama that if they only give one dollar proportion of six \$100,000 could thus intelligently and more effectually be maintained in the world.

He is not the first to do this, the boy who founded the Girls' School at Monteagle, who began with a \$600 appropriation and now has one of the best schools of its kind in America.

Another standard oratorism we show by the Henson Foundation and others who have been trying the bad roads of this country during the speech and the speaker won the praises of a large audience.

A REAL GOOD TIME

A man at Coffeyville had no one to love him, none to cherish because he's fond of the flowing bottle. In the good old halcyon days at Coffeyville there was no great prejudice against the booze fighter, and a man might empty his half pint flask in public and lose no prestige.

But times have changed at Coffeyville as elsewhere. The man whose nose is too red, and whose breath suggests last year's hen's nests, and whose legs wind around each other when he walks, is a social outcast.

So this social outcast stood down by the depot waiting for the train to come in. It is a rather curious and interesting fact that people who empty half pint flasks, day after day for several years, finally become possessed of an overwhelming desire to see the trains come in. That is why there used to be so many empty bottles round the railway depots in former times.

The outcast leaned against a

baggage truck, and waited and waited. Who wouldn't be Whiskey wanted for the train. Ever and anon he drew a flask from his hip. Finally he drew a flask from his hip pocket and quaffed some kind of liquor. He turned for consolation to his trusty pipe. He filled it with tobacco, and then struck a match on the truck, and immediately was converted into a living torch. The whiskey caught fire and burned with a beautiful blue flame. The outcast resembled a Fourth of July celebration and he yelled as loud as he could. His pants were full of enthusiasm. By discovery, he was greatly annoyed.
